Home, add 0 points.

If against a winning opponent, add 2 points.

Losing opponent, add 0 points

NCCAA II, or other, add 2 points

The sum of those criteria is your power points for the game.

Ex.: Maximum points in a game is 10 (Win on the road vs. winning NCAA I team)

Minimum points in a game is 2 (Loss at home vs. NCCAA II team)

Add the power points for the season, divide by number of games, and the result is your rating carried to three decimal places.

Teams will be ranked on this rating each week throughout the season. The rating system is only accurate as the information supplied on the game results form. Please gather and report the best data possible. Thank you.
